**Benson Medical Instruments Attends JDVAC  
February 25–27, 2013, in Nashville, Tennessee**

MINNEAPOLIS, MN (January 16, 2013) – Benson Medical Instruments will attend the 2013 Joint Defense Veterans Audiology Conference (JDVAC), sponsored by the Military Audiology Association. The conference is scheduled for February 25–27 at the Gaylord Opryland Resort in Nashville, Tennessee.

The JDVAC conference is the United States military’s largest event dedicated to preventing noise-induced hearing loss in its active-duty officers. The Army, Navy, Air Force, and the Department of Veterans Affairs will take turns leading discussion on a variety of relevant topics such as amplification, cochlear implants, hearing conservation, and tinnitus, among other subjects.

Benson Medical Instruments has designed and manufactured innovative audiometry solutions for the United States military’s hearing conservation programs since 1997. “By carefully listening to the needs of military users, we determined that they need reliable audiometers that can produce repeatable results under demanding conditions,” David Mayou, Sales Manager for Benson Medical Instruments, states directly. “The United States Department of Defense administers the largest hearing conservation program in the world, and we’re exceedingly proud to supply the only audiometer used at their nearly 1000 locations worldwide.”

Benson Medical Instruments Co. designs and manufactures audiometers, spirometers, and software to manage hearing conservation and occupational spirometry programs for companies.
